SKILLS

- **Languages:** Java, Python, JavaScript, PHP
- **Frontend:** HTML5, CSS3, React.js, Tailwind CSS
- **Backend:** Node.js, Django, REST APIs
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** GitHub, Postman, VS Code
- **Soft Skills:** Team collaboration, Leadership, Adaptable

WORK EXPERIENCE

- **Syncgaze: Link** Since Jan' 25

  The Software showroom – link Sep '25 – Nov '25
  - Engineered an end-to-end full-stack software discovery platform that delivers structured, verified, and consistently updated software information, improving **product discoverability, data accuracy, and overall user trust**.
  - **Designed and implemented a secure, role-based admin dashboard** with real-time CRUD operations and instant frontend synchronization, enabling efficient management of software listings, data consistency.
  - Increased data reliability by **~60%** and reduced manual content update effort by **~50%** through automated and centralized control, **improving operational efficiency** and workflow stability, end-to-end reliability.
  - **Developed a dynamic real-time discussion and Q&A module** that supports instant conversations and knowledge sharing between users, significantly improving **discussion response speed by 45%** and high user engagement.
  - Tech: Html, CSS, js, python, Mongo dB, Django, Azure storage.

PROJECTS

- **Multi-vendor Ecommerce Platform link** Jan '26 – Mar '25
  - Built and deployed a multi-vendor e-commerce marketplace with distinct Customer, Vendor, and Admin portals, session-based authentication, cart/checkout flow, and a full order lifecycle from placement to delivery/cancellation.
  - Designed and enforced a vendor onboarding and KYC workflow featuring document uploads (Aadhaar, PAN, License), server-side validation, and admin-controlled approval, rejection, and suspension flows with event-driven email notifications.
  - Productionized the application by deploying on Render with PostgreSQL, Gunicorn, and Whitenoise, using environment-based secrets, automated migrations, and admin bootstrap scripts to ensure reliable and repeatable releases.
  - Tech: Html, CSS, js, python, Db SQLite, Django
- **Smart Tourist Safety Guide: Link** Jan' 25 – Apr' 25
  - Built a **real-time tourist safety web application** with SOS alerts, live location sharing, and instant incident notifications, improving **emergency awareness and response time by ~35%** for nearby users.
  - Implemented **real-time incident synchronization**, making safety alerts instantly visible across nearby devices and increasing **situational awareness by ~40%** during critical events.
  - Integrated **live weather APIs and location-based services** to fetch nearby hotels and tourist attractions, enabling **30% safer travel decision-making** based on real-time data.
  - **Tech:** React Js, Node Js, api, Mongo dB, Postman, Tailwind CSS

CERTIFICATES

- Front end in react Js from Gokboru tech| Link Jul' 25
- Cloud Computing – NPTEL (IIT Kharagpur) | Link Apr' 25

EXTRA-CURRICULAR

- Led technical operations for Spirit Club hackathons; contributed to club's **Tier-2 elevation**. Nov' 25

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.0*** *Mar '23 -Present*

Tirumala junior college East Godavari Andhra Pradesh
Intermediate; ***Percentage: 97.6%*** *Apr'21 – Mar'23*

Sri Siddhartha school East Godavari Andhra Pradesh
Schooling; ***Percentage: 98.5%*** *Apr'20 - Mar'21*
